SAVE SEED

All possible Clover acreage must be left for seed crops this year, to insure sufficient amounts of Red, Mammoth, Alsike, Alfalfa, Sweet Clover for 1945 plantings. Second crop Clover will not make much hay or afford much pasture, but it will make SEED. Every grower of these vital seeds can contribute toward this need by harvesting the second crop for seed instead of for hay.

SAVE SEED

Three acres of Forage Seed planted for pasture or forage is apt to produce as much feed as 15 acres of second crop Clover.

If this 15 acres of Clover is harvested for seed this may furnish clover seed for 175 acres in 1945. "SAVE SECOND CROP CLOVER FOR SEED".

# OUR NEW ST. LOUIS PLANT

Convenient location: just south of Municipal (Free) Bridge—near truck depots, railroads, wholesale district—out of congested area.

Ample truck-loading space—**off the street**—with free parking lot. Two entrances—Fourth or Third St.—to platform which can serve 22 trucks at a time.

Railroad trackage alongside building. Bulk unloading provided for.

Building contains 125,000 square feet. Newest types cleaning machinery, with arrangement for quick, efficient, economical handling and cleaning of seeds.

Large, modern, daylight seed-testing laboratory to control buying, cleaning and preparation of seeds to meet and surpass requirements of the Federal and various State seed laws.

St. Louis is close to the producing territory of a wide assortment of Grasses, Clovers, Beans, Peas and Forage seeds, enabling us to offer first-hand at low prices.

In addition, we operate our large cleaning and storage plant at Atchison, Kansas, for handling and cleaning seeds originating in that area and the West. Atchison is in the northeast corner of Kansas, just across the Missouri line, in the center of the Blue Grass producing districts of Missouri, Kansas, Iowa and Nebraska.

## ED. F. MANGELSDORF & BRO., INC. ST. LOUIS

1020 SOUTH FOURTH STREET
